Division of Agricultural Sciences and Natural Resources
Oklahoma State University
Introduction
Welcome to the ranks of 4-H Fabrics and Fashions project leaders. As a leader you can make a real contribution to the lives of the young people in your community and county.

In this project 4-H’ers will learn how to select and buy fabrics and clothes, how to develop good grooming habits, how color affects our moods and lives, how to care for clothing items and how to make garments, using various construction techniques. Through the clothing project, 4-H’ers will become more creative, develop the ability to make wise decisions and grow in self-confidence and self-esteem. The manner in which you, the leader, help your 4-H’ers develop as individuals may be more important than the skills you actually teach.

Every 4-H’er has a different personality. Each has a capacity to learn and master skills at varying times according to his or her stage of development. Do not expect all individuals to learn alike or to do the same quality of work. Each project and experience in the clothing program is designed to aid the 4-H’ers development.

Objectives of 4-H Fabrics and Fashions
- Members will challenge their sewing skills through the selection and use of new sewing techniques, fabrics and notions.
- Members will learn to identify, construct or modify clothing or textile products for home interiors and to meet special needs, including those of the elderly and physically disabled.
- Members will learn how to recycle or update textiles and clothing.
- Members will develop construction, pressing and fitting skills for the purpose of making suitable and becoming apparel for themselves and others.
- Members will build self-confidence and poise by developing the ability to make the most of their personal attributes.
- Members will develop judgment and creativity in planning attractive wardrobes that express individual lifestyles.
- Members will gain consumer skills in making and purchasing clothing and accessories and in purchasing and using equipment related to clothing construction and care.
- Members will acquire knowledge of fibers, yarns and processes for making fabric.
- Members will become aware of career opportunities in clothing—fashion design and construction, textiles, home-based businesses, etc.

Responsibilities of 4-H Leaders
- Know the subject matter.
- Attend leader training meetings and workshops.
- Study leader training materials.
- Understand 4-H clothing program objectives.
- Work with a group and with individuals within a group.
- Develop leadership abilities in 4-H’ers.
- Involve boys and girls in planning, carrying out and evaluating programs.
- Conduct meaningful project meetings.
- Teach something new at each meeting.
- Use visuals and samples related to the subject matter.
- Help 4-H’ers select projects appropriate to individual abilities or interests.
- Help 4-H’ers evaluate their garments or projects.
- Realize that all individuals will not do the same quality of work.
- Help 4-H’ers to:
  - learn and improve sewing construction skills;
  - learn about fibers, fabrics and finishes;
  - be better consumers;
  - take care of their clothing;
  - gain self-confidence and poise.
- Help 4-H’ers develop positive attitudes.
- Teach by emphasizing standards.
- Encourage and advise, but do not do the work for members.
- Recognize that young members need more attention.

**Teaching the Project**

A good program doesn’t just happen; it is planned. As project leader and teacher you should become familiar with the objectives or goals of the unit or units with which you plan to work. The project materials may be used in several ways.

**Project Groups**

Four-H members enrolled in a group will select learning experiences as a group and complete a project under the guidance of a leader.

**Individual Participation**

A 4-H member does not have to be in a group to complete a project. Projects may be completed individually under the guidance of a leader.

**Special Interest Groups**

A group not planning to complete a clothing project may complete one or more lessons on a specific subject or activity.

Careful planning is important to making the best use of the limited time you have at meetings. As the leader, you will want to organize the group according to your situation and for the greatest advantage to the members. Consider the size of the group, the ability of members and your facilities.

Enlist the help of parents and/or older 4-H members. Allow 4-H’ers to help you plan sessions. Each meeting should include several short activities to hold the group’s interest.

**Teaching Methods**

Our goal is to teach young people clothing skills and skills relating to leadership and citizenship. Young people learn attitudes as well as skills from leaders. If leaders are to be successful teachers, they must understand how youth learn. Younger members usually need more direction and assistance. Older youth want to assert themselves and make many of their own decisions (see table, next page). Try a variety of teaching methods with your 4-H’ers.

**Demonstration**

One effective method for getting a point across or teaching a technique is demonstration. When giving a demonstration:

- Keep your directions simple.
- Physically demonstrate the technique. If possible, let 4-H’ers repeat the steps you have taken.
- Be sure the information is accurate and up to date.
- Work on an uncluttered surface so all can see what you are doing.
- Summarize.

**Tours or Shopping Experiences**

Tours or shopping experiences, if well-
planned, can have educational value and add variety to your program. Make arrangements in advance with the store or facility you are touring. Be sure the store is reputable and the personnel knowledgeable. Discuss with the manager or salesperson what you want emphasized. After the tour let the members evaluate by telling you what they learned. Some possible touring opportunities include:

- Fabric stores.
- Museums with costumes or textiles on display.
- Beauty shops, beauty schools, barber shops.
- Manufacturers of apparel, textiles or accessories.
- Home economics departments at high schools or colleges.
- Dry cleaning plants.
- Department stores or specialty shops.
- Commercial laundries.
- Sewing machine dealers.
- Wholesale sales facilities.

Shopping trips to purchase fabric, patterns and notions provide opportunities to teach quality of fabrics, use of pattern books and the variety of notions available for constructing garments. Similar shopping trips to apparel stores can be used to compare quality of fabric and workmanship in garments and brands of clothing.

Exhibits or Displays

Exhibits or displays can also be teaching tools. They provide learning experiences for those who prepare the exhibits or displays and also for those who view them. Every exhibit should have educational value. You, as a leader, should guide and direct the 4-H members in making the display. An exhibit could be:

- A display of the member’s hand-sewn garments, including information on fiber content, care and cost.
- A display to show and/or explain, for example, an explanation of a textile law or fabric finish, a generic fiber or trademark, instructions on removing a particular stain, an explanation of a care label or an identification of the weave or knit of a fabric.

Knowing 4-H’ers in the Group

A 4-H’er usually needs help identifying what he or she wants and needs to learn from a project. Use this process to learn more about the 4-H’er. A leader often can help a youth learn by asking questions that stimulate the youth to think and the leader to listen to ideas. Ask the 4-H’er to review his or her 4-H record, or bring the record, and review it with him or her.

Having the member list what he or she has learned from the clothing project areas is an easy way to start. The 4-H’er will probably be surprised to see all he or she has learned (how to make shanks on buttons, how to use consumer comparison criteria when purchasing clothing, how to test and identify fiber, how to talk to a judge, how to select styles of clothing, etc.)

Here are questions you can ask 4-H’ers to help you get to know them and remind them of the knowledge and skills they have gained.

- What did you do last year in the clothing project?
- What did you learn in the clothing project that was new?
- Have you used this knowledge in other projects?
- What presentation(s) did you give last year?
- What did you learn from those presentations?
- What could have gone more smoothly in those presentations?
- What did you exhibit last year?
- What did you learn from the experience of exhibiting? What will you do differently next year?
- What did you learn from Fashion Revue?
Clothing selection? Clothing judging?
- How did you share what you learned?

The next step is to help the 4-H’er decide what new skill to learn during the coming year. Ideally, the 4-H’er will want to learn something in each area of the clothing project, but don’t insist if interest is limited to only one or two areas.

Encourage youth to be creative and identify what they really want to learn. Then have them work with leaders and parent(s) to find ways to learn. Repetition of learning helps 4-H’ers gain greater understanding and skill. However, youth also should have challenging new learning experiences. Four-H members can better see what they have done and learned by:
- Writing project goals (what they want to learn) and keeping records from one year to the next.
- Writing project accomplishments (what they accomplished and what life skills they gained).
- Evaluating project experiences through discussion with the leader. (Be very specific in your evaluation discussions.)

**4-H Fabrics and Fashions Records**

Record-keeping helps 4-H’ers organize and evaluate what they have learned. You, as the leader, need to encourage members to keep records and help them understand why they are important. Set aside time in project meetings to work on completing records. Good records should be a source of pride and a permanent record of progress and accomplishment. They can stimulate self-improvement, because records show where improvement is needed.

Encourage 4-H’ers to record the completion of each garment or activity as soon as it is complete. That is the secret to keeping accurate records. Record keeping should be an integral part of the 4-H clothing program.

Instruct 4-H’ers to follow these guidelines when keeping records:
- Be selective in your choice of materials.
- Use current forms and state what you have learned.
- Make sure your pictures tell a story.
- Realize that quality, not quantity, is the key to good records.
- Spell all words correctly. Use proper grammar.
- Consider these questions as you write your “4-H Story.”
  - Why did I choose this activity or project?
  - What things did I try that were successful?
  - What things did I try that were disappointing?
  - How have my 4-H experiences helped me, my family, and others?
  - How have my 4-H experiences helped me develop citizenship and leadership qualities?
  - How has 4-H influenced my career plans?
  - What are my future plans?

**Illustrated Presentations and Talks**

Encourage each member to give at least one illustrated presentation or talk during the year to fellow members or other groups. Assist 4-H’ers in selecting topics of interest. Give them suggestions on how to use visuals. Encourage them to learn what they are presenting, not to parrot something they have memorized.

**Hints on Giving Illustrated Presentations and Talks**

- Select the subject.
- Collect references, information and materials on the subject.
- Be sure information is accurate and up-to-date.
- Outline the main points.
- Plan an introduction.
- Use neat posters. Be sure they are large enough for the audience to see.
• Keep table uncluttered in illustrated presentations.
• Speak clearly.
• Do not read from note cards.
• Practice, practice, practice!

Leadership aid Citizenship Activities
Leadership and citizenship activities are a part of every 4-H project. The following list should serve as a springboard for your 4-H’ers to come up with their own ideas.
• Assist with 4-H meetings and activities.
• Serve as a teen project leader, and help younger 4-H’ers with their clothing projects.
• Assist with style shows for club, school or other community functions.
• Model in style shows for local stores or community clubs.
• Help other 4-H members with clothing demonstrations and speeches.
• Do news articles and radio or television spots about club activities.
• Arrange to do a clothing display on recycling clothing items or some other clothing- or fabric-related topic in the library, at school or in a local store.
• Sponsor grooming clinics for special groups.
• Assist with clothing exhibits at local and area fairs.
• Construct costumes for a community drama club or 4-H talent show.
• Collect clothing for home fire victims.
• Help collect and recycle clothing for Salvation Army, Red Cross, Goodwill, or local charitable organizations.
• Volunteer to make curtains for 4-H camp cabins, homeless shelters and teen activity centers.
• Make clothing items for special groups – lap robes for rest home residents, stuffed animals for a children’s home, etc.
• Help teach a class for the elderly on clothing for special needs.
• Make a 4-H banner for parade floats.
• Offer to do chores or mending for a shut-in.
• Set up a question-answering service on clothing care at a local laundromat.
• Develop short radio spots about fabrics, care of clothing and fashion tips.
• Become involved in National Sewing Month or promotion of cotton or wool.
• Have a community sewing fair, and involve local shops and stores.
• Organize a community-wide pattern and/or clothing exchange.
• Help involve local department stores in presenting programs to 4-H groups or clubs on accessorizing or shopping for clothing.
• Give program presentations for school classes on fabric safety and flame retardancy.
• Plan activities that will benefit the community.
• Serve as an interview judge for the clothing projects of younger members.
• Help with historic costume displays at a local museum.
• Prepare games, using fabric samples to illustrate fabric textures.
• Write a script and stage a show about textiles.
• Discuss behavior of a good citizen when shopping for clothing, cosmetics or other grooming or apparel products.
• Help a summer theater, grade school play or talent festival by making or locating costumes and props.

Clothing Construction Outline
This outline is designed to give you some ideas for topics to cover as you work with youth in the clothing project.

Equipment
What is needed and how is it used? What is essential and what is optional?
- Sewing machine, needles, bobbins
- Iron, ironing board, press cloth, sleeve board, tailor’s ham, seam roll, pounder
- Shears or scissors, seam ripper
- Tape measure, seam gauge, yard stick
- Tailors chalk, marking pencil/pen
- Pens, sewing needles, thimble, pin cushion
- Notions (as needed for project), buttons, hooks and eyes, zippers
- Cutting board

**Pattern and Fabric Selection**

**Deciding What to Construct**
- Wardrobe needs.
- Level of sewing skill.
- Clothing construction project.
- Working with difficult fabrics, such as plaids or stripes and fabrics with a nap or pile.
- Color, line, and texture selection.

**Choosing a Pattern**
- Style –
  - Choosing patterns that diminish figure irregularities and are flattering to the figure.
  - Compatibility of pattern and fabric.
  - Construction details (should challenge sewing abilities but not exceed them).
- Size and type –
  - Taking body measurements.
  - Understanding sizing and measurements of commercial patterns.
  - Determining pattern size and type.

**Selecting Fabric**
- Care labeling.
- Selecting for beginners, intermediate and advanced.
- Quality.
- Suitability to pattern style and use of garment.
- Referring to pattern for amount to purchase.

**Selecting Interfacing, Underlining or Lining**
- Purpose of each and where they are used.
- Types available and characteristics of each.
- How to determine which one to use.
- Preparing for use.

**Preparing Fabric**
- Straightening and checking grain.
- Restoring right structure.
- Shrinking (when and which fabrics to pre-shrink, or pre-wash).

**Altering the Pattern**

**Why and when to alter**
- Altering for comfort, appearance, and durability and to disguise figure irregularities.
- Importance of making major alterations on pattern before cutting fabric.
- Internal and external methods.

**Checking pattern for fit**
- Adjust pattern to individual body measurements.
- Pin fit.
- Make garment in muslin, if necessary.

**Guidelines**
- If you alter one pattern piece, you may have to alter the adjoining piece.
- Slashing lines for internal alterations are usually parallel or perpendicular to lengthwise grain.
- Consider total amount to be added or taken away when making width alterations.
- Changed or distorted lines must be returned to their original character – straight or curved.
- When adding or taking away from edge
of pattern the new lines must have the same character as the original.
- Alter shaped pattern pieces internally to prevent changing the shape.
- Pattern grain lines must be straight when alterations are completed.
- After completing an alteration, check carefully to see if the width or length is added or removed where needed.
- On any pattern the most difficult areas to alter and preserve as originally designed are the chest, neckline and armhole.
- Pattern pieces should be perfectly flat when alterations are completed.

**Pattern Layout Cutting and Marking**

**Pattern Layout**
- Study guide sheet.
- Lay large pieces first; then fit small ones.
- Pin pieces, grain line first.
- Allow one-inch side seams (to use for fitting, if needed).
- Check all pattern pieces for grain line, seam allowances, alterations and markings.

**Marking**
- Equipment (Note: Dressmaker’s carbon and tracing wheel are not recommended.)
  - Tailor’s chalk/pencil
  - Contrasting thread
  - Marking pencils
  - Pins
  - Soap
- Methods
  - Chalk and marking pencils (for marking darts, placing pockets, etc.)
  - Tailor tacks (These are accurate, but slow to use and can be pulled out. Good for marking center, front and back, sleeve cap, and any marks you need to see from the right side of the garment.)
  - Pins (These are fast for the accurate seamstress, using certain fabrics.)
  - Snips in seam allowance (for the experienced seamstress, using certain fabrics.)
  - Cutting
  - Use sharp shears, making long cuts.
  - Cut accurately. Follow pattern carefully.

**Using the Sewing Machine**
- Stitch selection.
- Needle selection.
- Threading.
- Checking tension.
- Cleaning and oiling.

**Stitching and Pressing**

**Pressing**
- Equipment.
- Techniques for use.
- Construction pressing.

**Stay-Stitching and Directional Stitching**
- How and Why?

**Seams**
- Types.
- Locations and purpose.
- How to pin, stitch and press.

**Facings**
- Fitted
- Techniques –
  - Interfacings
  - Grading
  - Under-stitching
  - Tacking
- Facing finish for zipper

**Tucks, Pleats, Gathers**
- Tucks –
  - Purpose
  - Stitching
- Pleats –
  - Types
  - Marking
  - Pinning
  - Stitching
- Gather –
Measuring for amount of fullness
Methods

- Zippers –
  o Types
  o Methods (lapped, centered, hand-picked, fly front, invisible)

- Pockets –
  o In-seam
  o Patch
  o Lined
  o Unlined
  o Square
  o Round
  o Slot
  o Welt
  o Invisible stitched

**Assembling the Garment**

Organize construction in units, for example, bodies and skirt. Recognize a good fit.

- Crosswise grain line should be parallel to floor.
- Lengthwise grain should be perpendicular to floor at center front and back, unless design dictates otherwise.
- Lengthwise and cross-grain line of sleeve should hang perpendicular and parallel to floor, respectively.
- Sufficient ease should be allowed for comfort and ease of movement.

**Developing skill in fitting**

- Darts (length, width, placement)
- Seam lines
- Wrinkles (indicate problem)

**Collars and Cuffs**

**Collars**

- Types
- Cutting
- Stitching
- Grading
- Under-stitching
- Applying to garment
- Adding facing

**Plackets**

- Types
- Techniques

**Cuffs**

- Types
- Application

**Sleeves**

- Set-in
- Methods
- Application
- Finishing
- Other methods

**Finishing the Garment**

Joining bodice and skirt

- Waistline stay
- Casing

**Waistbands**

- Measuring
- Interfacing
- Application
- Belt loops

**Hem and Edge Finishes**

Preparing the hemline

- Selecting the finish

**Special hems**

**Buttons and Fasteners**

**Buttons**

- Types
- Techniques
Snaps

Hooks and Eyes
- Selecting
- Attaching
- Thread eyes

Belts and Belt Buckles
Fabric Belts

Fabric Covered Buckles

Belt Loops

Final Pressing

Suggested Outline for Lessons

First Session: Preparing to Sew and Sewing Machine Savvy
I. How to measure and select pattern size and type.
II. How to take body measurements.
III. How to select a pattern. (In a beginning class you may want to select five to 10 patterns and let participants select one of those.) How to select and prepare fabric, interfacing and notions.
IV. Grain of fabric.
V. Basic sewing equipment needed.
VI. How to use the sewing machine. (Use a simple project, such as a pin cushion, pot holder, etc.)

Second Session: Learn about Patterns and Marking
I. Learn about patterns.
   a. Pattern envelope.
   b. Pattern symbols.
   d. Measurements. (Check measurements with pattern, or pin-fit pattern to see if garment will fit. Beginners should do simple alternatives only—length, width and dart locations.)
   e. Adjustments.
II. Check layout before cutting garment.
III. Cut garment and interfacing.
IV. Mark and stay stitch.

Assignment: Study guide sheet. Complete at home, if necessary.

Third Session: Beginning to Sew
I. Pin-fitting garment to check fit.
II. Darts. (The dart is one of the most difficult parts to stitch correctly. Have participants do a sample before stitching darts in garment. Use a straight edge to guide your stitching.)
III. Pressing.
IV. Sewing and finishing seams.
V. Facings.
VI. Grading and under stitching.
VII. Importance of interfacing.
VIII. Finishing facing edge with a neckline zipper.
IX. Tack facing.

Assignment: Have participants complete seam finishes on garment if they are comfortable sewing at home with supervision. Otherwise you will need to supervise their sewing.

Fourth Session: Zipping It Up
I. Zippers. (What type is appropriate for which type of garment and closure?)

Assignment: Follow guide sheet for construction. Participants may want to do a sample zipper application.

Fifth Session: Closures
I. Fasteners.
II. Side seams.
III. Checking fit of garment.
IV. Marking hem.

Assignment: Have participants make samples of the closures they will be using on their garments.

**Sixth Session: Finishing the Garment**

I. Finishing hem.
II. Final pressing.
III. Modeling garment.

---

**Careers**

Throughout history, textiles and clothing have been an essential part of everyday living. Today, and in the future, textiles and clothing will continue to be important. There are many products and services and many occupational opportunities related to the fields of clothing and textiles. Each specific occupation requires a diverse range of abilities, interests and education, providing an almost unlimited variety of career possibilities.

A list of occupational groups and specific occupations within each group follows. This list does not cover every occupation, but it should at least provide you with suggestions.

**Manufacturing Fibers and Fabric**

- Fiber production engineer and chemist
- Fabric production engineer
- Fabric production librarian
- Educational consultant
- Industry consultant
- Publicity executive
- Market researcher
- Textile artist
- Color stylist
- Machine operator
  - Spinner
  - Weaver
- Record clerk
- Mechanic

**Apparel Production**

- Sketcher
- Designer
- Pattern maker
- Sample maker
- Advertising and promotion manager
- Sales representative
- Production supervisor
- Finisher
- Machine operator
- Draper
- Fashion coordinator
- Fitter and alterationist
- Sewing instructor
- Cutter
- Marker
- Spreader
- Presser
- Examiner
- Production inspector
- Machine mechanic
- Plant engineer
- Plant manager
- Personnel director

**Retail Store**

(Independent, chain, mail order)

- Merchandising
- Sale personnel
- Head of stock
- Department manager
- Buyer
- Assistant buyer
- Display personnel
- Advertising and promotion manager
- Fashion coordinator
- Personnel manager
- Merchandise distributor
- Comparison shopper
- Market researcher and reporter
Customer service manager

**Home Sewing Industry**
(sewing machine companies)
- Demonstrator
- Sales personnel
- Educational representative
- Advertising and promotion manager
- Machine mechanic
- Market researcher
- Machine engineer

**Pattern Companies**
- Designer
- Artist
- Sample maker
- Pattern drafter
- Pattern grader
- Draper
- Educational consultant
- Pattern direction editor
- Catalog photographer
- Catalog editor
- Pattern layout and measuring specialist
- Market researcher and reporter
- Promotion director and assistant

**Notion Suppliers**
(Home sewing and apparel production companies)
- Production consultant
- Sales representative
- Educational consultant
- Machine operator
- Production supervisor
- Machine mechanic
- Plant manager

**Accessories Trade**
- Designer
- Production consultant
- Sales representative
- Fashion consultant
- Advertising and promotion manager

**Planning and Promotion**
(Advertising agencies)
- Account executive
- Copy writer
- Art director
- Illustrator
- Fashion coordinator
- Photographer
- Researcher and marketing manager

**Consumer and Trade Publications**
- Fashion editor
- Merchandiser
- Advertising sale
- Distributor
- Researcher
- Reporter
- Public relations representative

**Consulting Services**
- Consultant
- Researcher and reporter
- Account executive

**Television and Radio Commercial Production**
- Researcher
- Fashion reporter and writer
- Broadcaster

**Trade Associations**
- Researcher – market and legislation
- Publicity director
- Convention director

**Teaching**
- Elementary, junior high and high school teacher
- High school vocational education teacher
- Adult education teacher
- Junior college, university and college teacher
- Youth and adult organization teacher

**Cooperative Extension Service**
- Extension agent
- Extension advisor
- Textile and clothing specialist
- Administration – county director, district
director, director

**Museums**
- Photograph file clerk
- Reference file clerk
- Display supervisor
- Care and preservation specialist
- Researcher
- Educational consultant
- Editor of museum publication

**Fine Arts and Theater**
- Costume designer, seamstress and alterationist

**Dry Cleaning and Uniform Specialist**
- Counter sales
- Dry cleaner-spotter
- Route sales
- Sales representative
- Plant manager
- Alterationist
- Uniform fashion coordinator
- Inspector
- Assembler and recorder

**Toy Manufacturing**
- Stuffed animal designer
- Doll clothing designer
- Sample maker
- Cutter
- Marker
- Production worker
- Production supervisor

**Interior Decorating**
- Furniture and upholstery designer
- Upholsterer
- Drapery seamstress
- Carpeting specialist

**Transportation Industry**
- Automobile, truck, bus, train, airlines, subway interior and upholstery designer and upholsterer

**Handicraft, Art Object and Recreational**

Designer
- Materials production
- Instruction writer
- Display specialist
- Demonstrator
- Materials tester
- Market researcher
- Manufacturing supervisor
- Sample maker
- Sales representative
- Distributor

**Free Lance**
- Lecturer
- Demonstrator
- Custom clothing construction seamstress
- Writer
- Designer
- Consultant
- Fashion magazines
- Trade publications
- Billboards
- Television
Some Additional References

*Parts of this section were adapted from the following:*
*4-H Member’s Clothing Activities, Intermediate Level*, University of California, Cooperative Extension Service, Berkeley, CA, 1983.
Hargrave, Harriet, *Heirloom Machine Quilting*.

There are many kinds of teaching techniques. It is often necessary to choose the correct one. Experts tell us the greatest learning occurs when people hear, see and do something. The cone of experience can serve as a guide for selecting the appropriate teaching techniques. Think of your favorite learning activities. Where do they fit on the cone of experience? Plan and conduct a learning experience, using each teaching technique within the top half of the cone.

**Cone of Experience**

Teaching Methods and Techniques

- Actual experience (4-H projects)
- Working with models
- Judging – dramatic participation
- Discussions
- Demonstrations
- Field trips – tours
- Exhibits – Displays
- Movies
- Radio – recordings
- Slides – filmstrips
- Still pictures
- Radio – recordings
- Illustrated talks, Charts, graphs, Posters, maps
- Printed matter, talks
