MAKING THE BEST BETTER

Oklahoma 4-H is the youth development organization of the Oklahoma Cooperative Extension Service. 4-H is dedicated to providing meaningful opportunities for youth and adults to work together to create sustainable community change. This is accomplished within three primary content areas, or mission mandates:

CITIZENSHIP

By connecting to their communities and community leaders, 4-H'ers understand their role in civic affairs and expand their role in decision-making processes.

HEALTHY LIVING

The Healthy Living Mission Mandate engages youth and families through access and opportunities to achieve optimal physical, social, and emotional well-being.

SCIENCE

4-H programs prepare youth for the challenges of the 21st century by engaging them in a process of discovery and exploration.

4-H'ERS ARE:

4X More likely to contribute to their communities.

2X More likely to be civically active.

2X More likely to make healthier choices.

2X More likely to contribute to participate in STEM programs.
