

## Compass & Quadrant

*Draw and Label the lines of Latitude and Longitude, include the Equator and the Prime Meridian.*

*Reflection:*

1. What are some other ways you can use a compass or quadrant?
  
  
  
  
  
  
  
  
  
  
2. If we can just “use an app”, why should we learn how to make/use compasses and quadrants?
